**Product Highlights**

- **Durable and Long Lasting**
- **Freeze protection**
- **Temperature maintenance**
- **Melting of solids**
- **Heat-up tote tank / IBC contents to a required temperature**
- **Thermal mixing**

---

**Tote Tank and IBC Heaters**

The contents in your tote tanks and intermediate bulk containers (IBCs), such as honey, molasses, or lube oil, can be slow moving and uncooperative when you need it most, especially when winter strikes. Heat allows the contents to flow at a manageable rate.

---

**Wide Range of Applications**

- Viscosity control
- Freeze protection
- Temperature maintenance
- Melting of solids
- Heat-up tote tank / IBC contents to a required temperature
- Thermal mixing

---

**Product Highlights**

- **Two Styles: Wrap-Around Full-Coverage Blanket Heater or Heating Pad that is Placed Underneath Tank / Bladder**
- **Does Not Contaminate or Scorch Your Product**
- **Durable and Long Lasting**
- **Variety of Standard Sizes and Configure-to-Order Options**
TOTE Wrap-Around Tote Tank / IBC Heater

Product Highlights

✓ Designed for caged, plastic, or metal tote tanks / IBCs
✓ Wrap-around blanket design allows you to heat a tote tank / IBC from the outside
✓ Does not contaminate or scorch your product
✓ Two separate heat zones allow you to adjust heater output when content levels decrease

The Features You Need:

Controls temperature easily with adjustable thermostats.

Fits several tote tank sizes with adjustable nylon straps and buckles.

Includes standard plug for an easy electrical connection.

Mouse Hole in provides easy access to Spigot.

Heats caged and metal IBCs with ease.

Perfect for plastic tote tanks. Heat does not scorch surface.
**TOTE Wrap-Around Tote Tank / IBC Heater continued**

### Specifications:
- Full coverage plug-and-play system
- Fits any tote tank from 40 in x 40 in (1016 mm x 1016 mm) to 48 in x 48 in (1219 mm x 1219 mm)
- Three standard height sizes: 36 in (914 mm), 42 in (1067 mm), 48 in (1220 mm)
- Two separate heat zones (top and bottom)
- Adjustable thermostat: Up to 160°F (71°C)
- Built-in manual reset high-limit safety thermostat set at 195°F (91°C) for each heat zone
- Attachment method: adjustable nylon straps with buckles (Two across the top and three around the tank)
- Silicone impregnated cloth outer and inner material
- 1/4 in (6 mm) fiberglass insulation
- InMouse hole in designed for spigot access
- Patented ground for your safety
- 120 / 240VAC, single-phase
- Total wattage:
  - 120VAC = 1440 watts
  - 240VAC = 2880 watts
- Power cord 6-foot (1.8m) long
  - 120VAC standard 3-prong plug (NEMA 5-15)
  - 240VAC standard 3-prong plug (NEMA 6-15)
- Optional insulated top cover reduces heat loss and accelerates heat up.
- Ingress Protection Rating: IP20

### How to Measure Your Tote Tank / IBC:
1. Measure the height of the tote tank / IBC (Not including the pallet or support stand).
2. Measure the length and width of the tank. This determines the tank perimeter for the heated area.
   \[
   \text{Tank Perimeter} = \text{Tank Length} \times 2 + \text{Tank Width} \times 2
   \]

Note: If tank perimeter measurement is below 160 in (4064 mm) or above 192 in (4877 mm), contact factory for heater recommendation.

### Ordering Options:
- **European Lead Wire Option (240V Only):** Add a in-CVE in at the end of the part number for crimped wire ferrule terminated leads.

**RECOMMENDED:** 240VAC model and top insulator is strongly recommended for applications that involve faster heat-up and melting due to the higher wattage requirements.
