Temperature regulating controls for use in heating equipment where the suitability of the combination is to be determined by the Canadian Standards Association.

All controls may have voltage ratings less than those indicated except that voltages associated with pilot duty or wattage ratings must be as indicated. All voltage ratings need not be shown. APPLIANCE CONTROLS

Temperature-limit switch, manually-reset, intended to open the circuit to a hot water or similar device in the event of failure of the operating thermostat; Type HL, 125/600V ac, 40/25A (non-ind.); 125/250/600V ac,

330/415/1000VA, pilot duty.

Thermostats*, automatic reset. Types 14T and 14TC (with first and second suffixes 1, 2 or 3), spst 120/240V ac, 10/5 FLA, 60/30 LRA, 25A (non-ind.), 125VA pilot duty 30,000 operations; 120/240V ac, 16/10 FLA, 72/45 LRA (6,000 operations); spdt -120/240V ac, 7.5/3.75 FLA, 45/22.5 LRA, 15A (non-ind.), 125VA pilot duty (30,000 operations); 240V ac, 16 FLA, 72 LRA (30,000 operations); or one contact 120/240V ac, 10/5 FLA, 60/30 LRA, 25A (non-ind.), and other contact 125VA pilot duty at same voltage (30,000 operations)

Type 14T with first and second suffixes 1, 2 or 3, spst, 5/3V ac, 2.5 FLA, 15 LRA, 50,000 operations, max temp 150F, conditioning temp 200F.

Type 29T (with first and second suffixes 1, 2 or 3), 120/240V ac, spst, 16/10 FLA, 72/45 LRA (6,000 operations); 10/5 FLA, 60/30 LRA, 25A (non-ind.), 125VA pilot duty (100,000 operations); spdt, (one throw), 10/5 FLA, 60/30 LRA, 25A (non-ind.), 125VA pilot duty (other throw), 125VA pilot duty (both throws), 7.5/3.5 FLA, 45/22.5 LRA, 15A (non-ind.), 125VA pilot duty (100,000 operations).

36T, 36TE, 36TM, TM#, -0, -1, -2, -3, or -4 and second suffix -1, -2; 120V/240V ac, 15/10A (non-ind), 3/1.5A FLA, 12/6 LRA, 125VA pilot duty (100,000 operations) 120V ac, 5 FLA, 25 LRA (6,000 operations), max cutoff temperature 350F with 50F overshoot.

36TX, 36TXE, 36TR, 36TRE, -0, -1, -2, -3, or -4 and second suffix -1, -2 or -6, 120/240V ac, 15/10A (non Ind), 5.5/1.5 FLA,a 10/5.6 LRA, 125VA pilot duty (100,000 operation 120V ac, 5 FLA ,25 LRA (6,000 operations) max cutoff temperature 350F with 50F overshoot.

36TH with or without suffix M, X, XE, R, RE, with first suffix number 0, -1, -2, -3, -4, second suffix -1, -2, -6, rated 120/240V ac, 15/10 (NI) 3/1.5, FLA, 12/6 LRA, 125VA pilot duty (100,000 operations) 120V ac, 5 FLA, 25 LRA (6,000 operations), 120V ac, 5 FLA,a 2.5 LRA (6,000 operations), max cutoff temp 400F with 50F overshoot.
