

INTRODUCTION TO DRUM/PAIL HEATERS

BriskHeat® Drum and Pail Heaters are designed to provide practical, efficient means of freeze protection, viscosity control, and maintenance of materials at elevated temperatures. A variety of standard sizes are combined with availability of configure-to-order designs to meet your application requirements.

Features & Benefits

- ▶ Improves flow and viscosity of drum and pail contents
- ▶ Plug-and-play with built-in control
- ▶ Durable and long lasting
- ▶ Hazardous-area drum heater options - FM and ATEX

Applications

- Viscosity control
- Freeze protection
- Temperature maintenance
- Melting of solids
- Heat-up drum contents to a required temperature
- Thermal mixing

Variety of standard sizes and configure-to-order options for special vessel heaters.
